		<p>Mr. Gorgia currently teaches Honors Math at Longfellow Middle School here in Fairfax County, after teaching in New York City during his PhD program at Columbia University's Teachers College. He has served as Marshall University's Program Coordinator, Content Developer, and Instructor for their online Masters programs in Gifted Education, training West Virginia's teachers of gifted students in all grades. Mr. Gorgia also was Assistant Director of the American Psychological Association's Center for Gifted Education Policy, where the center's academic mentoring programs attracted international leaders—including winners of the Nobel, Pulitzer, Emmy, and Turing Award—who developed collaborative projects with precollege students. Gorgia's math/literacy research and statistical analyses have supported the development of the television shows The Electric Company, Super Why!, and Sesame Street.</p>
